

Greetings,

December 2023

It is hard to believe we are at the end of 2023. As I sat down to write this letter, I reflected on some of the interactions and experiences Team CIE has found themselves in during the year. There is a concept that comes to mind—Collaboration for Community.

Collaboration has been our biggest strength in order to deliver services to the communities where we work. We collaborate with our homeowners, our Boards, local trades, and other resources to resolve property and homeowner related matters—this is what we love to do!

This year though, the collaboration has been something very special. It extended further through community food drives, toy drives and community fundraisers. Collecting items and raising money for House of Friendship, Milton Transitional Housing, Salvation Army, McMaster's Children Hospital, Milton District Hospital Foundation, Good Shepherd, and The Darling Home for Kids. Condo Communities helping their local Community is truly the theme of 2023 for CIE Property Management.

***“Snowflakes are small, but when they add up,
they make a big difference” ~Jen Brewer***

With that in mind, I am humbled and grateful to be part of such a diverse team of professionals and the communities where we work. Many of you welcome us into your homes and trust us to help you navigate Condominium Living. We love what we do and are so glad to do it with you.

Our management offices will be closed during the holiday season, reopening on January 2, 2024. While our staff will handle any emergencies during this time, the remaining items will be addressed when we return. We sincerely look forward to 2024.

Making a difference, Together

Jennifer Beaver
